

Main Business Activities

Atlas Aerospace, Austria's leading consulting and trading firm has been accompanying its partners - for more than 45 years - in all aspects from strategic development to the organisational-technical implementation of complex defence and security projects.

It has always been the company's ambition to provide both customers and international suppliers with unbureaucratic and rapid assistance in handling their trade procedures and promoting their specific projects.

Our expertise - accumulated and refined over the years - is at your disposal in the following business stages:

Market Analysis ♦ Consulting/Representation ♦ Project Development ♦ Tender/Offer ♦ Purchase Contract ♦ Project Management ♦ Integrated Logistic Support ♦ Technical System Integration ♦ Testing/Problem Solving ♦ After Sales Service ♦ Offset Management

We develop perfectly balanced project contents and implement the resulting requirements. To build up confidence at this stage is and remains the long-term aim of our activities!

Our main areas of business are:

Remote-Controlled Thermal Imagers ♦ Night Vision Equipment ♦ Target Observer Systems ♦ HF, VHF and UHF Radio Communication ♦ Aircraft and Helicopter Upgrades ♦ Fire Control Units ♦ Border Observation Units ♦ Laser Technology ♦ Soldier Protection Equipment ♦ Power Supplies ♦ Battery Chargers ♦ Security Systems ♦ Simulators ♦ Radarsystems
